Who is Ninsho ?

Ninsho is a medieval priest who lived in the 13th century, in the Kamakura period.

He was admired in his lifetime because he saved the sick, the poor and abandoned people and animals.

He directed the works to construct buildings, bridges, roads, wells and ports.

It was a super hero of charity who played multiple roles during his life.

For us who live in the 21st century, the works realized by this brave and tremendous Ninsho are rich in inspiration and ideas.
